My folks are asking is this domestic or international. My gut tells me it's domestic. I don't think we have any jurisdiction internationally. Am I correct ?

Not a Gold King Mine inquiry. Julia, can you respond. I don't think this is an EPA question. Could you confirm with OSWER and OPPTS. Thanks, George

Hello,

I'm a New York Times reporter in Hong Kong. I'm wondering if there are any guidelines in the United States regarding the storage and transport of sodium cyanide. If you can get back to me by the end of today, I would appreciate it.

Thanks,

Javier
